What is FMS?

Our over-arching mission is to help accelerate the move towards a world where advanced memory and storage technologies enable AI systems, data centers, hyperscalers and enterprises to operate at unprecedented scale, speed and efficiency. All the while supporting the engineers and architects building the infrastructure of the future.

FUTURE OF MEMORY & STORAGE is a multi-faceted event experience providing the most comprehensive and technically credible memory and storage event on the planet. It is carefully curated by an experienced team plugged into a global network.

Our presenters are visionary industry leaders, engineers and architects from all disciplines. They are selected for their relevance, dynamism and insight.

Fresh new look: Same world-leading event!

FMS is celebrating its 20th year with a modern rebranding that reflects our expanded scope across all tiers of memory and storage. This fresh, updated look signals our evolution into the industry's premier independent hub, offering a sophisticated platform for professional growth and global connection.

By streamlining our identity, we are better positioned to support the entire ecosystem, ensuring FMS remains the cutting-edge home for innovation and industry leadership.

FMS 2026 Awards

The FMS award program serves as the industry's ultimate showcase for the pioneering technologies, ingenious engineering, and visionary leadership that are redefining the boundaries of high-performance memory and storage. As the world's largest conference dedicated to memory and storage, FMS celebrates excellence across three distinct pillars, honoring the technology of today, the pioneers of the past, and the leaders of tomorrow.

Our awards include the Best of Show, Lifetime Achievement and SuperWomen of FMS Awards.
